Highly motivated and detail-oriented data analyst with a passion for transforming raw data into practical insights. Possessing a strong foundation in data analysis, visualization, and reporting, I thrive on creating predictive models that enhance forecasting accuracy. My collaborative approach and programming skills enable me to work effectively with cross-functional teams, designing and maintaining logical and physical data models for efficient data retrieval and analysis. With experience in data integration, quality assurance, and migration processes, I ensure accurate and reliable data across multiple systems.
